

PVBMDC is once again offering an exciting September program for Draft teams here in the Maryland Catoctin Mountains.

On Saturday September 7, 2024, 9am to 2pm, we will conduct a **Draft Workshop** at Hearts Delight in Smithsburg, MD, for learning and sharpening your carting skills.

For Novice and more experienced teams: the ring will be set for maneuvering practice and dry runs with an instructor/ judge, along with freight haul practice over the network of paths used in our Draft Tests.

For Beginners: we will hold a Beginners Workshop with a step-by-step hands-on training method with Jack Crifasi. This training program has been presented many times at our annual PV workshop and at BMDCA National Specialties. It will help teams get off to a good safe start with their beginning dogs. All Berner-sized equipment is provided, or bring your own for proper setup.

Send in the **Pre-registration form** or register at the site. Starting time is 9AM Saturday Sept 7. Flyer/registration is attached. Fee is \$30 per team. Auditors without dogs are welcome to attend and help as workers!

For further information contact at Jack4Berners@gmail.com.

Regards,
Jack Crifasi, Draft Chair, PVBMDC
